MULTI HEALTH CARE

**MULTI+PLUS™**  
A Brand You Can Trust

Multi Health Care is a professional manufacturing company with a focus on manufacturing and exporting of wide range of Products and supplies.

We are an ISO 13485:2016, CE Certified company . We produce high standard medical products , our manufactured units complies all the international quality standards for medical devices . Because of the stringent quality measures adopted by the company our products got self introduction in the export market in a big way . The company aims to serve its customers as ONE STOP SUPPLIER catering to their requirements of different products with the best quality at the competitive pricings, Using its expertise of sourcing from best available sources Because we have strongly believe that customer relationship are at the hearts of every successful company , we have decided that the best use of our resources were to serve customers in a way that no one else in the industry had approached . for that reasons,we set our sight and energies on becoming a distinguished manufacture .

### Registration of Certificate

This certificate has been awarded to  
Quality Management System for Medical Devices

#### MULTI HEALTH CARE

45, SURYAKETU BUNGLOWS, OPP. AKSHAR ARCADE, T.B. ROAD,  
VIJAPUR -382870, TA. VIJAPUR, DIST. MEHSANA, GUJARAT, INDIA

In Recognition of The Organization's Quality System  
Which Complies With

#### ISO 13485:2016

The Scope of Activities Covered by This Certificate  
is Defined Below

MANUFACTURING OF SURGICAL DISPOSABLE PRODUCT

Certificate No. :- UK-3263

Date of Certificate :02 AUGUST 2017      2nd Surveillance Due :01 AUGUST 2019

1st Surveillance Due :01 AUGUST 2018      Expiry Date :01 AUGUST 2020

Javed Ansari  
Director

D-16 D, Chanakya Place Part-2, Near C1 Jankpuri Chanam Devi Hospital, New Delhi-110059, India

Email id: qmsissocert@gmail.com      Website: www.qmsiso.co.in

This Certificate is Valid for 3 years Subject to annual Surveillance audit to be done Successfully  
(AN ISO CERTIFICATION BODY)

Authenticity of the certificate can be verified at www.ukcerti.co.uk

A Brand You Can Trust

### Certificate of Compliance

We hereby declare that the technical file of product class 1, Complied with the  
requirement of the Directives 2006/95/EC Low Voltage Directive

Certificate No :- CE-3264

#### Manufacturer

Name : MULTI HEALTH CARE

Address : 45, SURYAKETU BUNGLOWS, OPP. AKSHAR ARCADE, T.B. ROAD,  
VIJAPUR -382870, TA. VIJAPUR, DIST. MEHSANA, GUJARAT, INDIA

Product : MANUFACTURING OF SURGICAL DISPOSABLE PRODUCT

The Certification Body has performed an audit of the above product quality system covering the design, Manufacture  
and final inspection of the certified product. The quality system has been assessed, approved and is subject to  
continuous surveillance according to the directive 2006/95/EC low voltage directive.

This Certificate is issued under the following Conditions:

1. It applies only to the quality system maintained in the manufacture of above referenced models and it does not  
substitute the design or type examination procedures, if requested.
2. The certificate remains valid until the manufacturing conditions or the quality system are changed.
3. The certificate validity is conditioned by positive results or surveillance audits.
4. After fulfilling the relevant Regulation of class 1 in medical directive, the manufacturer shall affix to each device,  
of the referenced models.
5. The CE mark as shown above can be used, under the responsibility of the manufacturer, after completion of an EC  
Declaration of conformity and compliance with all relevant EC Directive in class 1 product. The statement is based on  
a single evaluation of one sample of mentioned product. It does not imply an assessment of the whole production.

Date of Registration : 02 AUGUST 2017  
1st Surveillance Due Date : 01 AUGUST 2018  
2nd Surveillance Due Date : 01 AUGUST 2019  
Date of Expiry : 01 AUGUST 2020

subject to the company maintaining its system to the required standard

## INFUSION SET

T-1801

T-1802

T-1803

T-1804

T-1805

- Super smooth kink resistance tubing ensures uniform flow rate.
- Clear, Transparent & Flexible Drip.
- Very efficient roller controller for accurate flow rate.
- Self sealing Latex\ Latex free bulb for easy flushing.
- Chamber with sharp and easy piercing Spike.
- Smooth Roller Clamp Facilitates easy, safe control and adjustment of fluid rates.
- Sterile / Disposable / Individually Packed.

## INFUSION SET (LUER LOCK WITH FLOW REGULATOR)

T-1808

- Super smooth kink resistance tubing ensures uniform flow rate.
- Clear, Transparent & Flexible Drip.
- Very efficient roller controller for accurate flow rate.
- Built-in 'Y' connector injection site for extra medication.
- Chamber with sharp and easy piercing Spike.
- Luer Locking for secure connection.
- Smooth Roller Clamp Facilitates easy, safe control and adjustment of fluid rates.
- Sterile / Disposable / Individually Packed.

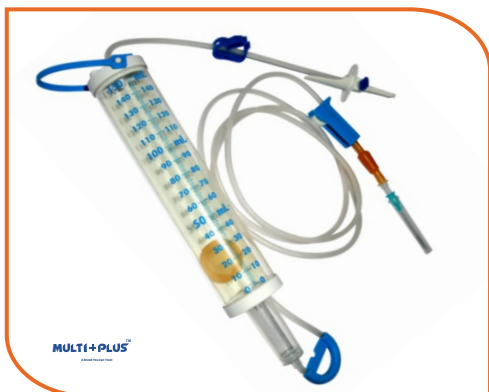

## BLOOD ADMINISTRATION SET

T-1810

- The soft kink resistance, translucent tubing is prepared from medical treated PVC material.
- The double drip clearly visible chamber facilitates visual access and rapid adjustment of fluid level.
- Specially designed roller (thumb) controller offer accurate regulation of infusion rate.
- Self sealing bulb latex for extra medication to avoid any contamination and easy flushing.

Single Moulded chamber

Double Moulded chamber

## MEASURED VOLUME SET

T-1812

- Flexible graduated burette with marking up to 110/150 ml.
- Sharp bevelled, smooth spike for easier penetration.
- Air inlet with bacterial filter and injection port.
- Disc filter inside the drip chamber for adequate filtration.
- C-clamp for regulating the rate of fluid infusion to the patient.
- Soft roller clamp for regulating the rate of fluid infusion to the patient.
- Kink resistant tubing with self sealing latex bulb for extra medication.
- Options of latex bulb/Y-shaped bulb; luer slip/luer lock rotator: vented spike/bevelled spike.

110 ML

150 ML

### THREE WAY STOP COCK WITH EXTENSION TUBE

T-1814

- Crystal clear transparent channel
- Minimum priming volume required for accurate drug administration
- Rotating male luer and two female luer connectors
- Arrow indication on the handle to indicate the direction of flow
- Connection meets 6% taper requirement to ensure leakage free fitment
- Extension line with three way stop cock at one end & male luer lock connector at other end
- Soft, frosted & kink resistant PVC tubing provides uninterrupted fluid movement
- Available with rotating Luer Lock.
- **Tube length** : 10, 25, 50, 100, 150 & 200 cm

### EXTENSION TUBE (HIGH PRESSURE & LOW PRESSURE)

T-1815

- Used for high pressure monitoring, and connection between syringe infusion pump and patient.
- Provided with universal male luer lock and female luer lock at either end to ensure securely fit all standard equipment.
- Available with Sterile / Disposable Individually Packed.
- For pressures up to 55 bar (800 psi)
- Capacity : 1.0 ml per 100 cm
- **Size:** 10,25,50,100,150,200cm

### I.V.FLOW REGULATOR

T-1816

- Designed to control flow rate from 5ml/hr – 250 ml/hr manually.
- Built-in Y-connector injection site for extra medication.
- Two hand operation eliminates the danger of accidental tampering.
- Provision of male and female luer lock makes it compatible with other devices.
- Disposable, sterile and non-pyrogenic.

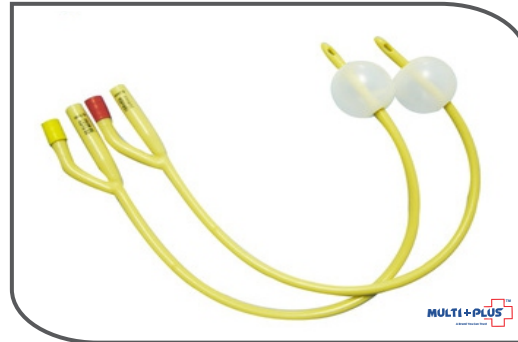

### SCALP VEIN SET

T-1817

- Scalp vein set is designed to provide rapid venous access with greater patient comfort during infusion.
- Thin wall needle provides better flow rate per gauge, as in the same cannula more circumference is available for better flow of fluid.
- Colour coded butterfly wings for better fixation and easy identification of size.
- User friendly design ,Light weight ,Fully sterilized
- **Size:** 18,19,20,21,22,23,24,25

## FOLEY BALLOON CATHETERS

U - 2801

- Made of Silicone elastomer bonded with latex rubber, which can be retained in body for longer duration
- Symmetrical foley balloon to ensure upright tip in urinary bladder for proper drainage of urine
- Two lateral burr free eyes to prevent the risk of injury and encrustation
- Hard plastic valve for trouble free inflation and deflation of balloon
- Color-coded for easy identification of size

TWO WAY		THREE WAY	
Size in FR	Balloon capacity	Size in FR	Balloon capacity
6	1.5 ml	16-30	30 ml,30-50 ml
8,10	3 - 5 ml	<b>FEMALE CATHETER</b> Size in FR    Balloon capacity 12-24        15 ml,15-30 ml	
12,14	15 ml, 5-15ml		
16-30	30 ml,30-50 ml		

### URINE COLLECTION BAG

(WITH TOP OUTLET)

U - 2801    U - 2802

- Available with specially molded handle for easy handling
- Also available with sampling port
- Soft and kink resistant PVC tubing With non-return valve
- Bag graduated in ml to indicate the quantity of urine collected
- Conical inlet connector with cap
- Tube length : 90 & 100 cm & Capacity : 2000 ml
- Available sterile or non sterile

Size:- Premium    Economics

### URINE COLLECTION BAG

(WITH BOTTOM OUTLET)

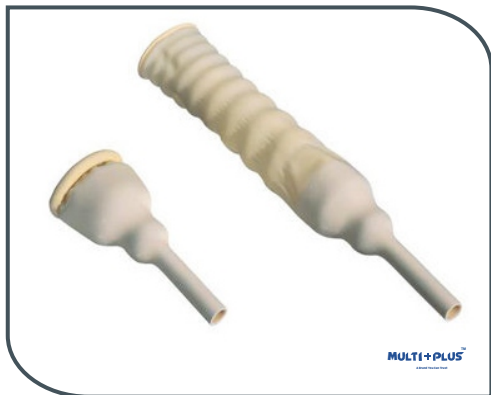

U - 2803

- Specially designed 100% closed urine drainage system.
- Two litre capacity bag manufactured from extra strong yet transparent sheeting to provide clear vision of the colour of urine.
- Non-return valve to prevent the backflow of urine.
- Single hand operated "T" type bottom outlet facilitates extremely fast emptying of the urine bag.
- Large bore, transparent, kink resistant flexible tubing ensures unrestricted flow of urine.
- Unique foldable hanger provided with tube holder is suitable for bed side hanging and keeps the tube in upright position.
- Sterile, individually packed in peelable pouch.

## URINE COLLECTION BAG (WITH MEASURED VOLUME METER) U - 2804

- Urometer has been designed for measurement of hourly urine output.
- Clear and Transparent measured volume chamber provides accurate measurement.
- Urine chamber directly attached to the urine bag with overflow facility.
- 150cm long kink resistant tubing ensures the unrestricted flow of urine.
- Completely closed circuit eliminates the risk of contamination.
- Screw type bottom outlet is provided for easy and quick emptying of urine bag.
- Universal tapered connector with sampling port facilitates mid stream
- Capacity of urine bag – **2 liters (2000ml Approx.)**

## MALE EXTERNAL CATHETER U - 2805

- Male External Catheter is a Penile Sheath/External Catheter specially designed for urine incontinence for day and night use in male patients
- It is manufactured from 100% latex for soft and gentle feel
- The product is provided with soft adhesive coated strip for proper fixing on the penis
- The proximal end is designed for safe and easy connection to urine bag/leg bag
- Sizes :- **20, 25, 30,35 & 40mm**

## BAD PAN U - 2808

- BED PAN is an incontinence collection of the elegant bedside pan.
- Bed Pan is designed for patients with fracture injuries, immobile or post-surgery. It has a heavy duty construction.
- These bed pans are molded from polypropylene. In order to provide more convenient positioning, the Bed Pan features tapered, ceramic finish inside, easy to open lid.
- The edges of the handle are smooth, secure and helps prevent injuries to the patient.
- The tapered edge of this product offers a lip which is designed to prevent accidental spills when withdrawn.

## URINE POT ( TWO IN ONE) U - 2809

- Urine Pot for Male & Female also.
- 1000 ml Capacity with graduation mark,
- Easy fit cover for Hygiene and Odourless,
- Easy carry handle.
- Can be stored in standing or lying position.
- Disposable. Available in loose pack/ shipper pack.
- Individual Packed. / Loose pack. & Shipper pack also.

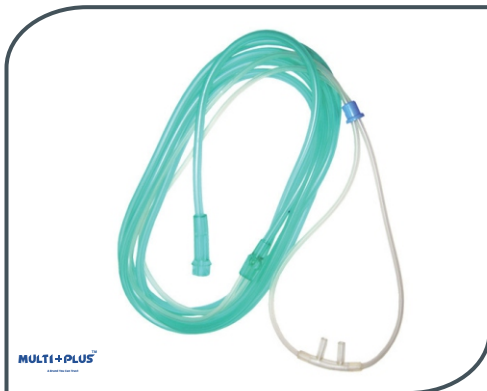

## LUNG EXERCISER

**A - 3801**

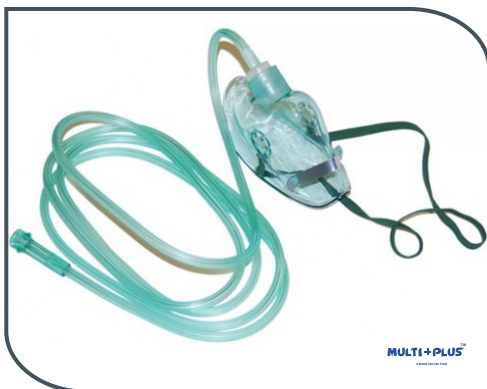

- Useful in restoring and maintaining lung capacity of post operative ambulatory and COPD patients.
- Improves respiratory parameters, maximal exercise capacity and overall cardiopulmonary status.
- Air filter for enhanced protection.
- Transparent, well calibrated chambers for accurate estimation of exercise capacity.
- Soft, aesthetically coloured inspiratory tubing.
- Colour coded triple ball design for proper visual feedback.
- Sleek, stable design.
- 3 chamber pf 600,900 and 1200 cc/sec inhaling volume.

## TWIN BORE NASAL OXYGEN SET

**A - 3802**

- Suitable for easy and efficient administration of oxygen.
- Star lumen main tube to avoid accidental blockage.
- Soft and kink resistant PVC. Tubing.
- Soft twin prong nasal tips to ensure equal distribution of oxygen through both air passages which provides maximum patient comfort.
- Non-sterile
- Tube length: **210cm**
- **Sizes:-** **Adult** **Paediatric** **Neonatal**

## OXYGEN FACE MASK

**A - 3803**

- Suitable for oxygen therapy
- Swivel connector for patient comfort
- Elongated facemask for long term use
- Clear and soft mask for patient comfort
- Adjustable elastic strip and integrated nose clip for proper positioning of mask
- 210 cm long star lumen tubing to ensure continuous flow of oxygen
- Proximal end of tube is connected with funnel shape connector for easy connection with oxygen source
- Star lumen main tube to avoid accidental blockage
- **Sizes:-** **Adult** **Paediatric**

## NEBULIZER FACE MASK

**A - 3804**

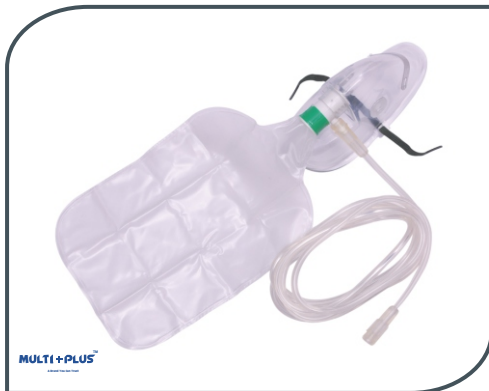

- Transparent mask (with holes) made from non-toxic, medical grade PVC.
- Nebuliser chamber (7ml) to house the drug in liquid form with a funnel shaped vent to allow oxygen at high flows to convert the liquid drug into droplet form to reach the lungs.
- Soft, kink resistant, 180cms long non-collapsible extension tubing to be connected with the oxygen source.
- **Sizes:-** **Adult** **Child**

## NEBULIZER WITH T PCS

A - 3805

- Super smooth kink resistance tubing ensures uniform flowrate.
- Smooth and feathered edge of face mask for patient comfort and reducing irritation points.
- Quick to assemble - Facilitates fast nebulisation Can be used with Mask, iGel, LMA and ET tube
- Rotatable sections - Can be used on patients in sitting or supine position.
- Proximal end of tube is connected with funnel shape connector for easy connection with oxygen source.
- Star lumen main tube to avoid accidental blockage.
- **Tube Length : 210cm.**

## HIGH CONCENTRATION RESERVIOR BAG

A - 3806

- Oxygen mask with reservoir bag pecially designed for patients who needs High concentration oxygen therapy in short time
- Comes with a breathing bag made up of soft & transparent plastic attached to the mask to store a supply of oxygen to allow deep breathing without waste of oxygen
- Light weight 600ml reservoir improves oxygen efficiency and patient comfort Elongated facemask for long term use
- Adjustable elastic strip and integrated nose clip for proper positioning of mask
- 210 cm long star lumen tubing to ensure continuous flow of oxygen
- **Sizes:-** Adult Paediatric

## MULTI FLOW VENTURI MASK

A - 3807

- Disposable Single patient use.
- Non-Sterile packed sealed in Pouch.
- Easy adjustable, Variable venturi system ensures fixed & accurate concentrations of oxygen.
- Color Coded, air entrainment low and medium concentration diluters.
- Elongated facemask for long term use.
- Clear and soft mask for patient comfort.
- Adjustable elastic strip and integrated nose clip for proper positioning of mask.
- 210 cm long star lumen tubing to ensure continuous flow of oxygen.
- **Sizes:-** Adult Child

## SILICONE HEAD HARNESS

A - 3808

- Head Harness is made of Silicone Medical Grade Rubber
- The strapping must be across the cheeks of patient and the long arm is to be hooked across the cheeks
- The straps should be attached to the metal clips situated around the face mask connector.

## GUEDEL AIRWAY

A - 3809

- Suitable for maintaining an unobstructed oropharyngeal airway during general anaesthesia and in unconscious patients
- Bite block to prevent biting of tongue and airway occlusion
- Rounded atraumatic edges
- Smooth airway path for easy cleaning
- Color coded for easy identification of sizes
- Sizes : - 000, 00, 0, 1, 2, 3, 4, 5

## AIR CUSHION MASK

A - 3810

- Rotation molding: Providing soft and comfortable air cushion.
- High transparency for better visualization.
- Special shape designed, easy to hold.
- Color-coded hook valve options.
- Injectable air cushion.
- Non-reusable. Single use only.
- 100% Medical level PVC material.
- Latex-free components.
- Material: PVC, Stainless steel and PP
- Available Sizes:

## NASOPHARYNGEL AIRWAY

A - 3811

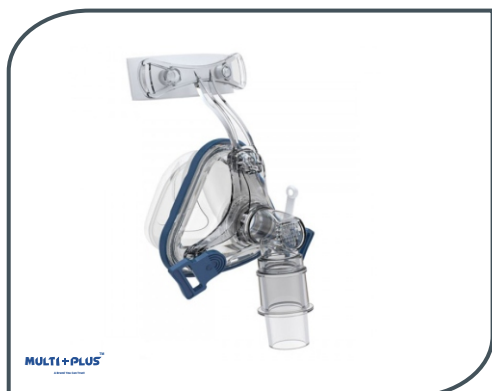

- Nasopharyngeal airway with a packet of water soluble lubricant.
- Sterile, Latex-free, for single use only by trained individuals.
- Flexible for maximum patient comfort.
- Soft material for enhanced nasal passageway comfort.
- Size: 5, 5.5, 6, 6.5, 7, 7.5, 8, 8.5, 9.

## LARYNGEL MASK AIRWAY

A - 3812

- Consists of an inflatable silicone mask and a rubber connecting tube.
- The silicone mask is integrated with a pilot balloon.
- Pilot balloon has one way valve to keep air inside without Leaking.
- Rubber connecting tube has 15 mm connector.
- Allows rapid access to the airway, without the support of a laryngoscope or muscle relaxants.
- Provides ventilation in spontaneous as well as controlled modes.
- Has the advantage of being used during rescue airway access, following failed intubation.
- Allows the option of being used as a conduit in fiberoptic laryngoscopy.
- Size: 1, 1.5, 2, 2.5, 3, 4, 5.

## CPAP/BIPAP MASK

A - 3813

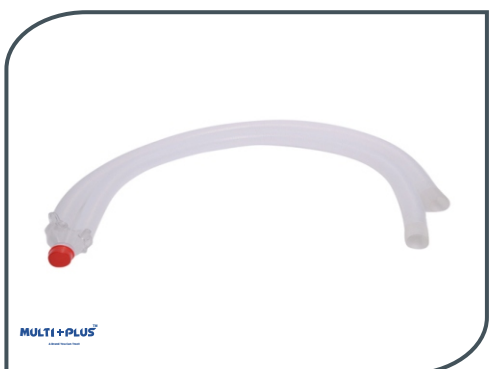

- Full face mask is a ventilation device of cpap or bi-level therapy . It is used medical care professional for oxygen transmission to patients.
- Made up by Medical grade import silicone material can bring good comfort to the patient

## VENTILATOR CIRCUIT PLAIN

A - 3814

- Made from Medical grade raw materials
- Affordable price
- Flexible
- Fixed length
- 60 inch (152 cm) Tubes - 2 Nos
- Fixed "Y" with one port
- Elbow with sampling port
- Disposable & Single Use
- Sizes:- **Adult** **Paediatric**

## EXPANDABLE VENTILATORS CIRCUIT & KIT

A - 3815

- Ventilator Circuit offered is desired for providing low tidal volumes as well as rapid respiratory rates as required for adults as well as childs.
- Standard connector (15mm, 22mm) soft and seal tight for flexibility throughout the critical care management.
- The Product can be customized as per the individual need.
- Individually packed in poly pack
- Sizes:- **Adult** **Paediatric**

## SINGLE WATER TRAP CIRCUIT

A - 3816

- Re- sealable water-trap provides a perfect sealing while removal of excess collection of water from the water-traps giving a continues flow.
- Made of high quality medical grade plastic with 22M-22F straight connector.
- Transparent for easy monitoring of water build-up or blockages.
- Corrugated, Flexible and Lightweight tubing 1.6 meter with single and double re-sealable water trap, 'Y Piece' with monitoring port.
- Individually packed in poly pack
- Sizes:- **Adult** **Paediatric**

## DOUBLE WATER TRAP (ADULT)

A - 3817

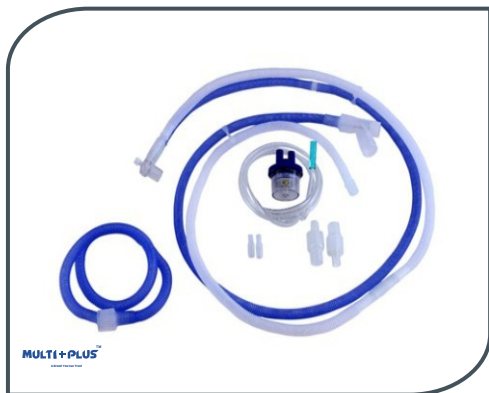

- Double Water Trap Ventilator Circuit is the gas pathway connecting patients lung to the mechanical ventilator. It is essential that Circuit should be highest quality in order to Ventilate patient correctly, efficiently and safely.
- Airways offers wide range of circuit suit most of the ventilator and humidifier, Combinations. We can customize the product as per the individual need.
- High transparency
- Flexibility
- Minimum compliances
- Sterile.
- Disposable & Single Use

## LIMB O VENT CIRCUIT

A - 3818

- Heat Retention - Its unique septum ensures heat transfer from Inspiratory to Expiratory and average temperature increase in Inspiratory gas is over 3 degree C
- Amplified Passive Humidification thru septum
- Significantly increase delivered volume without sacrificing drapes due to much lower compliance
- Weight is 34% less than coaxial circuit and 25% of traditional circuits
- Can be used with Both Adult and Pediatric .
- Can be used both in OR and ICU
- Smooth common wall reduces turbulent flow resulting in resistance comparable to traditional circuit

## NEONATAL HEATED WIRE CIRCUIT

A - 3819

- Heated Wire Circuits are used to provide added humidification and is designed with patient safety and reliability in mind.
- The heated wires heat the air in the circuits and maintains the temperature along the tube to ensure continuous delivery of warm and humid air of an optimum level for the patient.

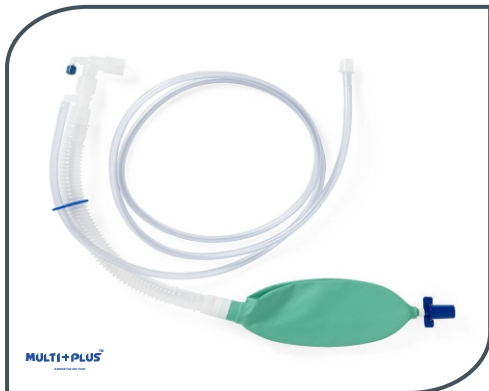

## BAINS CIRCUIT

A - 3820

- Bain Circuit offered comprises co-axial modification of basic T-piece system which has been developed for facilitating scavenging of waste anesthetic gases.
- As a tube carrying fresh gas, it travels inside outer reservoir tube to endotracheal tube connector.
- The process includes patient inspiring fresh gas from the outer reservoir tube and expiring into reservoir tube. The offered set comprises
- **Sizes:-** Adult Paediatric

## J R CIRCUIT

A - 3821

- Jackson Rees circuits, also known as Mapleson F non-rebreathing circuits, are available in standard and custom options
- Stock Jackson Rees circuits include Norman elbow, Washington tee, 84" fresh gas oxygen tubing clipped to 12" expiratory hose and breathing bag with tail-valve bleed
- Breathing bags are made from a unique synthetic-rubber blend of materials designed to provide optimal feedback for accurate pressure assessment
- Not made with natural rubber latex.

## VENTILATORS KIT

A - 3822

- Its light, elastic and easy for operation.
- Connected securely so no leakage.
- Transparent tube makes it easy to observe.
- Standard 22mm/15mm connector can be connected with all Standard ventilators and anesthesia machine
- Self expandable and non- expandable (without water trapper / with one water trapper / with two water trapper/HME Filter/Catherter)
- color : Blue and Clear
- **Sizes:-**  Adult  Peadiatric

## HME-BVF BREATHING FILTER

A - 3824

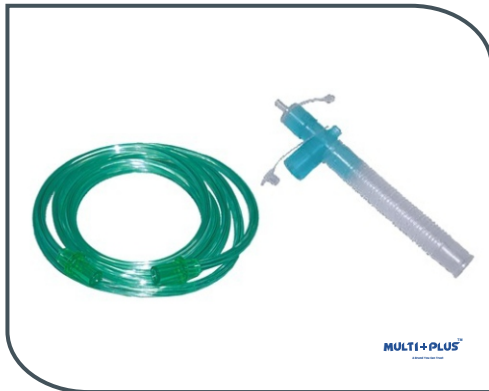

- Breathing filter with heat & moisture exchanger are used at the patient end connection of a breathing system to prevent heat and moisture loss.
- The filters are designed to prevent bacterial/viral cross contamination via breathing system used on an infectious patient during ventilation.
- 99.99% Bacterial Viral efficiency
- Excellent HME moisture output
- HME Membrane with CO2 Port
- 22M/15F - 15M/22F ISO connectors
- Single Patient use
- **Sizes:-**  Adult  Peadiatric

## CATHETER MOUNT

A - 3825

- Suitable for connection between endotracheal tube and breathing circuits Compatible with all types of breathing and ventilator circuits
- Provided with 22 mm standard female connector on both the ends with inner diameter of 15 mm
- Collapsible corrugated tubing being inert to all anaesthetic gases and reagents
- An elbow port is provided for easy suctioning without causing disturbance to breathing circuits

## T- OXYGENATOR

A - 3826

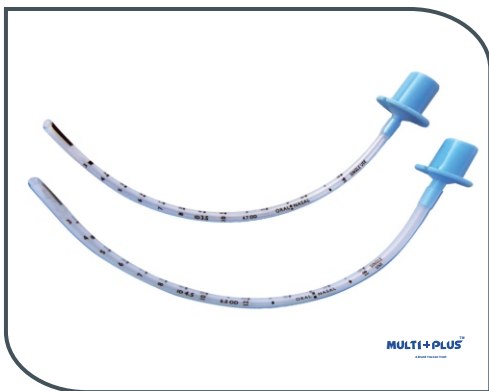

- T- Oxygenator helps weaning patient from ventilators For long term tracheotomy patient with oxygen requirement this device works well.
- There is suction port by which secretions can be extracted without removal of T from tube thus preventing infection.

## RESUSCITATION BAG

A - 3827

- Silicon resuscitation bag is available with E-type valve, Oxygen connecting tube and reservoir bag.
- These bags are respiration device used to provide positive pressure for manual ventilation needed when a patient lacks respiratory drive during resuscitation involving oxygen.
- **Sizes:-** **Adult** **Pediatric** **Neonatal**

## ENDOTRACHEAL TUBE (PLAIN)

A - 3828

- Made from non-toxic, clear, transparent, thermoresistant medical grade PVC (Polyvinyl Chloride).
- Fitted with standard 15 mm connector for attachments to all standard ventilatory circuits in operation theaters or intensive care units.
- Graduated markings to display distance from the tip. Well marked to indicate the internal/external diameter.
- Nasoral tip suitable for both nasal and oral intubation.
- Full length radio-opaque lines to assess position of the tube radiographically.
- Murphy's eye near the tip to circumvent any obstruction.
- Size:-2.5,3,3.5,4,4.5,5,5.5,6,6.5,7,7.5,8,8.5,9,9.5,10.

## ENDOTRACHEAL TUBE (CUFFED)

A - 3829

- Made from non-toxic, clear, transparent, thermoresistant medical grade PVC (Polyvinyl Chloride).
- High volume, low pressure, evenly shaped cuff with a pilot balloon integrated to the tube for secure positioning inside the trachea .
- Fitted with standard 15 mm connector for attachments to all standard ventilatory circuits in operation theaters or intensive care units.
- Graduated markings to display distance from the tip.
- Well marked to indicate the internal/external diameter.
- Nasoral tip suitable for both nasal and oral intubation.
- Full length radio-opaque lines to assess position of tube radiographically.
- Murphy's eye at the tip to circumvent any obstruction.
- Size:-2,2.5,3,3.5,4,4.5,5,5.5,6,6.5,7,7.5,8,8.5,9,9.5,10.

## LATEX SURGICAL GLOVES (PRE POWDERED) M - 6801 ( POWDER FREE)

- Manufactured with Non-Toxic Chemical and Special Quality.
- Latex in clean hygienic and dust free environment.
- Intended to use in invasive surgery for protective covering for the hands from contamination.
- Made from special quality natural rubber latex.
- Lightly powdered with bio-absorbable corn starch U.S.P. grade to prevent granules.
- Anatomically shaped for better comfort and micro rough surface for better instrument grip
- Extensively leached in hot flowing to reduce extractable protein and chemicals residues.
- Size: 6, 6.5, 7, 7.5, 8.

## EXAMINATION LATEX GLOVES M - 6803

- 100% natural rubber latex.
- Convenient and comfortable to wear.
- Non finger fatigue.
- Keeps the hands cool and comfortable.
- The examination gloves are tested and proved safe against dermal sensitization and skin irritation.
- Pre-powdered or Powder Free
- Size:- Ex-Small,Small,Medium,Large,Ex- Large.

## EXAMINATION NITRILE GLOVES M - 6804

- Type Latex Free, Powder free and non-sterile.
- Design & Features Ambidextrous; smooth or fully textured surface, beaded cuff,natural white.
- Powder Absorbable cornstarch USP Grade.
- Storage The gloves shall maintain their properties when stored in a dry condition at temperature not higher than 30°C.
- Size:- Ex-Small,Small,Medium,Large,Ex- Large.

## INFANT MUCUS EXTRACTOR M - 6807

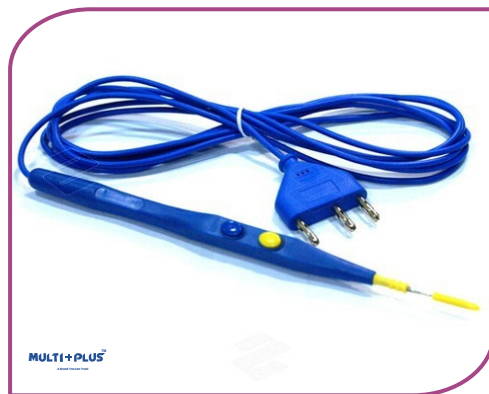

- For aspiration of secretion from oropharynx to ensure free respiration in newly born babies
- Convenient to extract mucus specimen for microbiological examination
- Separate screw top lid for safe sealing and handling of aspirate
- Soft, frosted & kink resistant PVC tubing
- Also available with thumb control suction catheter
- Capacity : 25 ml, 40 ml, 100 ml, 175 ml
- Suction Tube lengths available: 40 & 50 cm
- Suction Tube sizes: From 6 FG to 14 FG

## HOT WATER BAG

M - 6808

- They heat therapy and are used for joint pains, muscular cramps, menstrual pain, stomach or back ache, muscle pull, arthritic pain, rheumatic pain, and ache from excessive sport activity.
- Includes a fabulous looking warm cover which provides extra care and comfort while using it.
- It is used as a natural body warmer used for heat therapy treatment 2 litre hot water bottle.
- Portable and effective with instant heat 1 year preparer's warranty bottom sealing technology.

## DISP. ELECTROSURGICAL CONTROL PENCIL

M - 6809

- Appropriate switch sensitivity.
- Clear & appropriate switch position, with gentle "click" when activated
- Streamlined
- Anti-slippery surface
- Light Weight
- Quality Control - 100 %
- Sterilization marker on the pouch
- Register FDA Approve with CE Mark
- Cost Effective

## YANKAUER SUCTION SET

S - 4801

- Suitable for pre-operative removal of secretion and body fluids.
- Cut to fit funnel connector to suit different suction pump lines at proximal end.
- Standard funnel connector at distal end of tubing to connect Yankauer Handle.
- Yankauer Handle is open end with 4 lateral eyes to withstand negative pressure and ensures continuous and easy suction of fluid.
- Yankauer Handle available in standard or crown tip with or without Vacuum thumb control.
- Soft and kink resistant ribbed PVC tubing.
- Available in tube length of 210 cm, 250 cm and 300 cm.
- Available Sterile and Non Sterile.
- Packed individually in Poly pack/Ribbon Pouch pack.

## UMBILICAL CORD CLAMP

S - 4801

- Dimensionally accurate
- Perfect finish
- Reliable performance

## GAUZE CLOTH

S - 4801

- Hydrogen peroxide bleached
- No lint,
- Excellent absorbency
- Perfect finish
- Available In Vast Range
- Cost Effective Price
- Skin Caring

## BANDAGE CLOTH

S - 4802

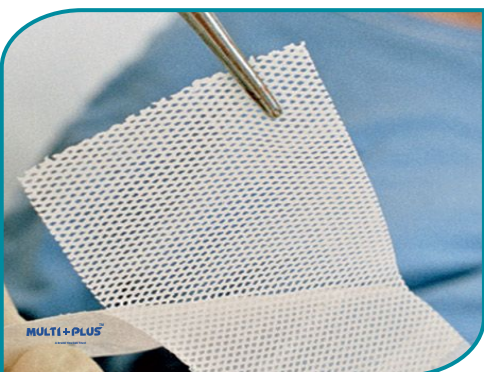

- Weave Type: Plain Woven
- Application: Fiberglass Mesh Cloth
- Weight: 70~300 g
- 8 mt. x 50 cm
- 18 mt. x 100 cm
- 16 mt. x 50 cm
- 16 mt. x 100 cm
- 20 mt. x 60 cm
- 18 mt. x 90 cm

## EYE PAD

S - 4803

- It contains highly absorbent cotton in highly absorbent gauze and wonder filter wrap
- Perfect eye shaped-perfectly fits
- Extra soft and fully hygienic
- Perfect eye shaped -perfectly fits.
- Extra soft and fully hygienic
- Highly absorbent
- Completely sterilised-by Gamma Radiation.
- Long lasting sterility till package damaged or opened-with broad sealing area.

## PERAFFIN GAUZE DRESSING

S - 4804

- Paraffin acts as a soothing agent.
- The antibiotic/antiseptic in it helps in the healing process
- Interlocking gauze yarn threads, minimize when dressing is cut to shape
- Does not stick to the wound and does not disturb the dressing process
- Due to special type of butter paper loss of medicine after removal of butter paper is minimum
- Sterilized by GAMMA radiation
- Allows easy application and removal of dressing
- Suitable for use with any anti-septic topical creams
- Available in different sizes and packs

## I V CANNULA FIXER

O - 7801

- Simple to use, painless removal.
- No irritation and no traces on the skin.
- Allows air and humidity to pass freely.
- Non-allergic adhesive with paper liner for easy removal.
- Fixes the cannula in the region of insertion till the procedure is completed.
- Size: Medium & Large.

## ELASTIC ADHESIVE BANDAGE

O - 7802

- Better elasticity Best Quality concentrated adhesive, sticks properly and gives long lasting adhesive action
- Dose not hamper muscular & joint flexibility and ensure smooth pressure
- Normal skin breathing and comfortable body movements High porosity- permits air circulation
- Easy to unroll & use due to best quality release film
- Easy to remove, because of thin non-adhesive edges
- No harm to the skin after removal
- Very useful as a light compression bandage for muscular support
- Used for dislocations, ulcers, varicose veins, skin grafting
- For general surgical, orthopedic and sports injuries
- Use as a pressure dressing

## COTTON ADHESIVE BANDAGE

O - 7803

- Good aesthetic appeal due to woven fast edges.
- More porosity makes air and vapour permeable, and allows breathing of skin.
- Very good quality concentrated adhesive, sticks properly and gives long-lasting adhesive action.
- Adhesive protected by special release film to enhance smooth unrolling, easy application, and long storage life.
- Easy to remove, because of thin-non-adhesive edges and leaves no residue after removing
- An ideal bandage where support, immobilization & pressure is required.

## PLASTER OF PARIS BANDAGE

O - 7804

- Lightweight, durable, higher cast strength.
- P.O.P Bandage made from lightweight fine POP powder & Leno / gauze, fabric lightweight, easy to use with high compression & tensile strength.
- Quick saturation, Rapid setting time, Minimum loss of free powder. P.O.P Bandage has excellent water absorbency capacity, shorter immersion, rapid setting time, minimal wet & dry powder loss, reduces repeat use of bandages and is very economical.
- Smooth finish, strong, durable
- P.O.P Bandages smooth, creamy finish & cosmetic look bandage.
- Easy and excellent mouldability & consistent layer to merging.
- Higher concentration & retention of pop powder ensuring durable cast strength

## GAMJI ROLL

O - 7805

- High absorbent
- Various sizes
- Soft texture
- Cotton fabric
- Hygienically processed
- Low marked price

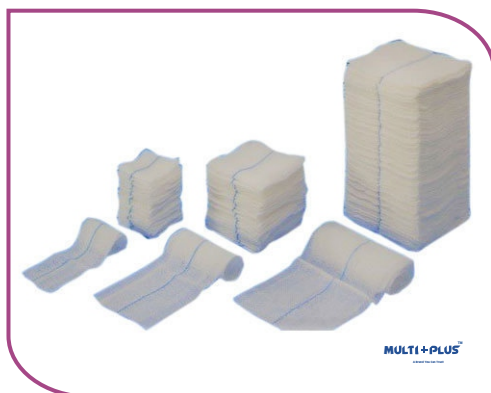

## ORTHOPEDIC BANDAGE

(Cast Padding)

O - 7806

- Cast Paddings give excellent skin tolerance
- Perfectly conforms to your body contours, allowing easy body movements
- It acts as a cushion between the skin and the plaster
- Prevents skin maceration
- There are fewer chances of pressures sores occurring in your body
- The padding allows normal breathing of the skin

## GAUZE SWAB

O - 7807

- Soft texture, Bleached to good white, free from optical whiteness.
- Excellent absorbency & high volume retention
- Clean, odourless, free from fabric defects & other foreign impurities.
- Gauze swab available as Sterile & Non – Sterile Pack Application:
- Ideal use for wound cleaning, Protect wound & other general wound care

## COMBINE DRESSING - STERILE

O - 7808

- Dressing is wound friendly & Low adherent .
- Superior absorbency than gauze dressing .
- Protect wound ,reduce risk of infection , hypoallergenic, permeable to air.
- Provide wound to remain in dry condition.
- Single used and Gamma/ GTO sterilized dressing.
